

## JAPANESE IMMIGRATION SUBJECT OF CONFERENCE

ambassador Shidehara Confers With  
Secretary Colby, Who Expects  
Amicable California Settlement.

(By Associated Press.)  
WASHINGTON, August 28.—Ambassador Shidehara, and Secretary Colby conferred today regarding the Japanese immigration question. The Japanese ambassador, upon which Governor Colby, of California, recently addressed a statement. After the conference Mr. Colby said he had ground to hope that the question would be settled soon in a manner satisfactory to the people of California, the Japanese government and the United States.

The conference was informal in character, the ambassador not the secretary was acting under specific instructions. The entire question was discussed, and it was said authoritatively that the Japanese ambassador fully understands the feeling of the people of California and of the government.

Secretary Colby said later that it had not been determined when or where details of the expected settlement would be made public, whether by letter from him to Governor Colby, or by an announcement from the State Department and the Japanese Foreign Office, or by an exchange of correspondence between the two governments.

"My baby was all broken out with eczema on her head and face. It first broke out in little pimples, something like a rash, and then turned into sore eruptions. They seemed to itch as she scratched awfully bad. I tried most everything I thought would do any good but with no success. I used Cuticura Soap and Ointment. **THE VALUE OF CHARCOAL**  
Few People Know How Useful It Is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose. Charcoal is a remedy that the more you use of it the better it is. It is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system. Charcoal sweetens the breath after smoking and after eating onions and other odorous vegetables. Charcoal effectively cleans and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic. It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh. All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered willow charcoal, and other harmless antiseptics in tablet form, or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey. The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefit. A Buffalo physician in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels and to clear the complexion and purify the breath, mouth and throat; I also believe the lozenge is greatly benefited by the daily use of them; they sweeten the breath, clear the throat, drug stores, and, although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."—Adv.

**Is Lack of Iron in The Blood  
Making An Old Man of You?**  
Many A Man Still Young in Years Is Fast Growing Old—With His Vigor and Energy Leaving Him, and His Mes-Dispatch Simply Through Neglect to Keep His Blood Tomorrow

**Work, Worry and Nerve Strains of Modern Life Sap the Iron From the Blood, Says Physician**  
Who Tells How Organic Iron Like Nuxated Iron Helps Build Rich Red Blood, Strengthen the Nerves and Make Tired, Worn-out and Run-Down Men Look and Feel Years Younger.

He may be in his thirties or he may be close to sixty but no matter what his years, a man looks and feels old when the iron in his blood runs low. His strength slips away and his vitality dwindles, he no longer tackles his work with the old-time vim and energy, and he lacks the endurance to put in long hours. The lines of care and worry creep into his face, his skin loses its healthful glow and becomes sallow, sagging and wrinkled. To all appearances he is an old man though still young in years. Nature is giving him her warning signs that he lacks sufficient iron in his system to build fresh energy, strength and endurance, to keep his body healthy, his nerves steady and his mind clear and active and unless he quickly replenishes the iron in his blood, he steadily becomes more nervous and weak until the final breakdown comes. How organic iron, Nuxated Iron helps build up red blood, strength and endurance and there from looking and feeling old before his time is explained in the following statements.

"My experience has taught me that many a man is aging too fast merely because his blood is starving for want of iron," says Dr. Ferdinand C. King, New York Physician and Medical Author. "Blood without iron is like a man without hands. The man cannot feed himself nor do his work, and similarly blood without iron cannot feed itself from the food passing through the stomach nor can it carry the necessary oxygen to the cells of the body. The red corpuscles of the blood do this work; and iron is necessary to keep them in condition. If a man's red corpuscles lose their iron and he becomes pale, weak and run-down, I urge him to build up his strength with Nuxated Iron. Many a time I have seen patients through I aged careworn appearance grip on health in only a patient stops worrying about because he no longer feels Dr. James Francis Sullivan, Physician of Bellevue Hospital, Westchester County Hospital, New York, may be an old man at thirty, intellect, poor in memory, irritable and all run-down, fifty or sixty with plenty of iron blood, you may still be young in all of life, your whole being braced with vim and energy. To strong, keen, red-blooded men there is nothing in my Joseph L. Browning
